

Sample Maths Strategy Guide

Free student resource. Use it, print it, and share StudyHub with a friend.

How to attack a maths question

- Underline what is asked.
- List given values.
- Choose a method.
- Show steps neatly.
- Check the answer by substitution or estimation.

Marks strategy

- If a question has 5 marks, show enough work for 5 marks.
- Do not jump from question to answer.
- Write units and final statement.
