

Sample Memo

Free student resource. Use it, print it, and share StudyHub with a friend.

Sample marking method

- Award method marks for correct formula or setup.
- Award accuracy marks for correct substitution/calculation.
- Do not give final-answer mark if units/sign are wrong where required.

Example

Question: Solve $2x + 5 = 17$

$2x = 12$ [method]

$x = 6$ [accuracy]

Check: $2(6)+5 = 17$
