

Grade 9 Maths Foundation Worksheet

Free student resource. Use it, print it, and share StudyHub with a friend.

Practice set

- Simplify: $3x + 2x - x$
- Solve: $2x + 5 = 17$
- Factorise: $x^2 + 5x + 6$
- Calculate: 25% of 360
- Find the gradient between (1,2) and (5,10)
- Convert 0.375 to a fraction.

Self-check

- Did you show every step?
- Did you check signs?
- Did you substitute back into equations?
- Did you write units where needed?
